

# A Spider's Body

Study the parts of a spider's body. Then answer the questions below.

**1.** How many legs does a spider have?

- ☐ 4 legs      ☐ 7 legs      ☐ 8 legs

**2.** Which part of the spider's body is biggest?

- ☐ the front      ☐ the back      ☐ the fangs

**3.** Spinnerets spin silk for webs. On which part of the body are they?

- ☐ the front      ☐ the back      ☐ the legs

**Try It!** Spiders can't see well. Close your eyes. How can you use your senses to tell what is near? Share your ideas with a friend.
